

Restrict VSAC Portability

For the Benefit of our Students and State

Did you know:

- **Almost 25% of VSAC grants go to out of state institutions;**
- **In 2015-16, \$11.6 million dollars in need-based aid followed US college students to another state. Vermont supplied almost half of those dollars;**
- **When students attend college out of state they are much less likely to return.**

I support:

- **Reasonable restrictions to VSAC portability so that more tax dollars stay in Vermont;**
- **Limiting VSAC portability to those states with a reciprocity agreement;**
- **Retain students and education dollars to strengthen Vermont's community and economy.**
